Reviewer’s report

Title: The Effect of Functional Splinting on Mild Dysplastic Hips after Walking Onset

Version: 4 Date: 26 May 2005

Reviewer: Stuart Weinstein

Reviewer’s report:

General

-------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

All previous concerns have been addressed. Okay to publish.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
