Reviewer’s report

Title: Variations in rates of nosocomial infection among Canadian neonatal intensive care units may be practice-related

Version: 4 Date: 11 June 2005

Reviewer: Gabriel Escobar

Reviewer’s report:

General

No further revisions are indicated

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

No further revisions are indicated

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

No further revisions are indicated

Discretionary Revisions (which the author can choose to ignore)

None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
