Reviewer's report

Title: Ethnicity and gender related differences in extended intraesophageal pH monitoring parameters in infants: a retrospective study

Version: 3 Date: 6 April 2005

Reviewer: Vic Velanovich

Reviewer's report:

General: We done study.

--------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

--------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Discussion a little too long, perhaps could be shortened.

--------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

--------------------------------------------------------------------------------------------------------------------------

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
