Reviewer's report:

General

----------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
I only have one additional minor suggestion to add the limit of hypothermia in the abstract part of the paper (hypothermia (< 36.5C) instead of hypothermia).

What next?: Accept without revision
