Reviewer’s report

Title: Screening for hypoglycemia at the bedside in the neonatal intensive care unit (NICU) with the Abbott PCx glucose meter

Version: 2 Date: 17 August 2006

Reviewer: John Mastrototaro

Reviewer’s report:

General

---------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

Results section:

Third equation, replace "x" with "LAB PCx".

Figure 1 captions reference dashed lines which did not show up on the figure.

In Figure 2 for the hematocrit effect, is it possible to provide the equation of the line of fit which shows the effect.

I would suggest a quick editing review to correct some minor grammatical errors if possible.

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No
