Reviewer’s report

Title: Screening for hypoglycemia at the bedside in the neonatal intensive care unit (NICU) with the Abbott PCx glucose meter

Version: 3  Date: 13 October 2006

Reviewer: Marek Brabec

Reviewer’s report:

General
In their covering letter, the authors provided careful answers to questions raised in previous review. They corrected most of the problematic spots and improved quality of the text substantially. The paper is now suitable for publication.

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
