Reviewer's report

Title: A Reference-frame for blood volume in children and adolescents.

Version: 3 Date: 7 December 2005

Reviewer: Colin H Jones

Reviewer's report:

General
As above

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No

Declaration of competing interests:
