Title: Parent-Rated Behavior Problems Associated with Overweight After Controlling for Sleep Disordered Breathing: A Prospective Study

Version: 2 Date: 2 October 2006

Reviewer: Judith Owens

Reviewer's report:

General
The authors have done a good job of responding to what were initially fairly easily addressible concerns on my part and I would now recommend acceptance without further revisions.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field
