Reviewer's report

Title: Management of Neonatal Hyperbilirubinemia: Pediatricians' Practices and Educational Needs

Version: 2 Date: 5 December 2005

Reviewer: Claudio Tiribelli

Reviewer's report:

General

The authors have satisfactorily deal with the points raised.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes

Declaration of competing interests:
