Reviewer's report

Title: Mild Gestational Diabetes in Pregnancy and the Adipoinsular Axis in Neonates born to mothers in the ACHOIS randomised controlled trial.

Version: 2 Date: 17 November 2006

Reviewer: Robert Fraser

Reviewer's report:

General
I have looked at the revised version of the paper with the editorial comments of the authors and I am content that it should go forward for publication in BMC Pediatrics.

---------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
