Reviewer's report

Title: Breastfeeding and childhood asthma: a six-year population-based cohort study

Version: 2 Date: 29 October 2007

Reviewer: Simon Francis Thomsen

Reviewer's report:

General

Review comments have been dealt with properly.

------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None.

------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None.

------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

None.

------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
