Reviewer’s report

Title: Idiopathic central precocious puberty in girls: presentation factors

Version: 1 Date: 10 March 2008

Reviewer: Peter C Hindmarsh

Reviewer’s report:

The authors have worked hard to revise the manuscript and the manuscript now reads very well indeed.

I take the point about the recent GPR54 patient although the molecular and functional data are totally unconvincing and I would not use this as reference for very much.

Peter Hindmarsh

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
