Reviewer's report

**Title:** Cost per case or total cost? The potential of prevention of hand injuries in young children - retrospective and prospective studies

**Version:** 3 **Date:** 16 June 2008

**Reviewer:** J David Cassidy

**Reviewer's report:**

I have read the revised article by Ljungberg et al, the reviewer’s report of the original article by Miller and the authors’ response to Miller. In my opinion, Miller raised some important issues and the authors have given a robust and thoughtful response. They have carefully considered the reviewer’s concerns and have either addressed them in the article or made appropriate clarification in their response. In my opinion, the article should be published and it has been strengthened by an excellent exchange between the reviewer and the authors.
