Reviewer's report

Title: Adherence to antiretroviral therapy in young children in Cape Town, South Africa, measured by medication return and caregiver self-report: a prospective cohort study.

Version: 1 Date: 17 June 2008

Reviewer: Carlo Di Pietrantonj

Reviewer's report:

* Discretionary Revisions
(Which are recommendations for improvement but which the author can choose to ignore)
[I do not feel necessary the figure 2, its information could be described in the text]
[I do not feel necessary the figure 3, its information are already described in the text]

* Minor Essential Revisions
(such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
[The top of the figure 2 and figure 3 could be set to 100%]

* Major Compulsory Revisions
(which the author must respond to before a decision on publication can be reached)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
