Reviewer's report

Title: Perinatal complications and socio-economic differences in cerebral palsy in Sweden - a national cohort study

Version: 2 Date: 29 May 2008

Reviewer: Helen Dolk

Reviewer's report:

Since I recommended only discretionary revisions, I had a quick look at what was revised only.

I am disappointed that a) the extra references included are not referred to in the Discussion section, and b) that the response given to my review regarding the socioeconomic gradient in term births is not included in the paper.

However, I think they have improved their discussion of the limitations of hospital admission data.
