Title: The incidence, etiology and outcome of acute seizures in children admitted to a rural Kenyan district hospital

Your revised manuscript has improved very much after the revision. There is still some typing mistakes, in my opinion, to be corrected. Lines 1 and 2 from the bottom on Page 12 in the Result section, "Streptococcus viridians" should be changed into "viridians streptococci". Viridians streptococci are a group of streptococci, and should not be italic, and "Staphylococcus aureus" should be italic.

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
