Reviewer’s report

Title: Long-Term Safety of Mometasone Furoate Administered via a Dry Powder Inhaler in Children: Results of an Open-Label Study Comparing Mometasone Furoate With Beclomethasone Dipropionate in Children With Persistent Asthma

Version: 2 Date: 26 May 2009

Reviewer: Olof Selroos

Reviewer’s report:

The authors have answered my questions well and responded to the requested changes. The manuscript has been considerably improved and I have no further requests for changes.

On page 9 in the text Figure 3A and Figure 3B should be 2A and 2B.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

During the past five years I have received payment for editing and writing medical reports and manuscripts for AstraZeneca, Orion Pharma and Schering-Plough and for speaking at medical meetings organized by AstraZeneca.
