Reviewer’s report

Title: Evaluation of Seasonal Patterns of Kawasaki Syndrome- and Rotavirus-associated Hospitalizations in California and New York, 2000-2005

Version: 3 Date: 14 July 2009

Reviewer: Eduardo M Volotao

Reviewer’s report:

Minor Essential Revisions

1-A consideretion in the first paragraph wasn`t answered. The authors are considering the vaccine rotavirus recommendation to “all US children” and the right sentence must consider the age restriction criteria for rotavirus vaccination to avoid possible adverse effects.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
