Reviewer’s report

Title: Economic and other barriers to adopting recommendations to prevent childhood obesity: results of a focus group study with parents

Version: 2 Date: 12 October 2009

Reviewer: Anjali Jain

Reviewer’s report:

I believe the authors addressed the critiques and it is a scientifically sound report with interesting findings that may be important for the prevention of childhood obesity. The new format for presentation significantly enhances the understanding of the results and the meaning for readers. Interesting and well-done paper and revision.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

no conflict of interest or competing interest
