Reviewer's report

**Title:** A Canadian naturalistic study of a community-based cohort treated for bipolar disorder

**Version:** 2  **Date:** 15 November 2009

**Reviewer:** Pratap Chokka

**Reviewer's report:**

I have had a chance to review the revised manuscript and the concerns addressed by myself and Dr. Goodwin. I am satisfied with the revisions and the incorporation of these changes into the manuscript

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**
