Reviewer's report

Title: Physical health behaviours and health locus of control in people with schizophrenia-spectrum disorder and bipolar disorder: a cross-sectional comparative study with people with non-psychotic mental illness

Version: 4 Date: 29 May 2011

Reviewer: Brian Shiner

Reviewer's report:

The authors have addressed all of my specific concerns. Furthermore, it appears that they have done a thorough job in addressing the concerns of the other two reviewers. I think this makes the manuscript an accurate report of their work, which in itself is valuable in its contribution to our understanding of the physical health of people with mental illness.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
