**Title:** Physical health behaviours and health locus of control in people with schizophrenia-spectrum disorder and bipolar disorder: a cross-sectional comparative study with people with non-psychotic mental illness

**Version:** 4 **Date:** 13 June 2011

**Reviewer:** Prisca Weiser

**Reviewer's report:**

Re-review:

The quality of the manuscript has been improved. The major objections of the first review have been adequately taken into account. Particularly the background and the method parts have benefited from the revision and also the discussion is much clearer now and much more related to the primary objectives of the study.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
