Reviewer’s report

Title: Repetition of suicide attempts across episodes of severe depression
Behavioural sensitisation found in suicide group but not in controls

Version: 3 Date: 10 November 2010

Reviewer: Sudhir Kumar C Thevan

Reviewer’s report:

The authors have revised the manuscript and have done a satisfactory item by item revision of all the suggestions. However the editors might want to have a closer look at the article submitted for publication in Archives of suicide research to make sure the data submitted here is not a major overlap of the other article and fits with the editorial policy of the journal.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
