Reviewer's report

Title: Psychometric properties of the Cardiac Depression Scale in patients with coronary heart disease

Version: 2 Date: 5 November 2012

Reviewer: Alisa A O’Riley

Reviewer’s report:

Thank you once again for the opportunity to review the revision of this interesting and important manuscript, entitled "Psychometric Properties of the Cardiac Depression Scale in Patients with Coronary Heart Disease." This revision of the manuscript is concise and well-written. In my opinion, the manuscript also makes an important contribution to the field. The authors have adequately addressed the revisions requested by both me and my fellow reviewers.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
