Reviewer's report

Title: Long-term safety, tolerability and pharmacokinetics of the highest available dose of paliperidone palmitate: a one-year open-label study in patients with schizophrenia

Version: 2 Date: 9 November 2011

Reviewer: David Kemp

Reviewer's report:

The authors have provided sufficient responses to address all of the initial queries.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

Since the time of submitting my initial review of this manuscript, I have entered into a consulting relationship with Jannsen.
