Reviewer's report

Title: Is computerised CBT really helpful for adult depression? - A meta-analytic re-evaluation of CCBT for adult depression in terms of clinical implementation and methodological validity

Version: 3 Date: 10 March 2013

Reviewer: Luigi Rocco Rocco Chiri

Reviewer's report:

The authors have adequately revised the manuscript. It could be possible to ameliorate the article through a further summary of the discussion but the authors can choose to ignore my advice.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
