Reviewer’s report

**Title:** 'Pseudoneurological' symptoms, dissociation and stress-related psychopathology in healthy young adults

**Version:** 3 **Date:** 2 April 2013

**Reviewer:** Doris K Nilsson

**Reviewer’s report:**

Minor but essential

I think the word confirm in the conclusion in the abstract is to strong” showed is better i think.

More outspoken limitations

clear references to the questionnaires used after each one.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
