Reviewer's report

Title: Reliability and validity of the Sheehan Disability Scale modified for pathological gambling

Version: 2 Date: 4 June 2013

Reviewer: Barry Tolchard

Reviewer's report:

I have read this paper and believe that as it stands there is no need to change anything. I think the subject area is interesting and may well lead to better understanding of the subject. Having said this, the likelihood of the described questionnaire being used widely is probably not likely, but having an opportunity to examine and use it for clinicians and researchers in the field is important. I therefore recommened publishing with changes.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
