Reviewer's report

Title: A greater number of somatic pain sites is associated with poor mental health in adolescents: a cross-sectional study

Version: 3 Date: 20 October 2012

Reviewer: Akira Babazono

Reviewer's report:

The authors satisfactory revised their article to my comments. There is no problem for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
