Reviewer's report

Title: A greater number of somatic pain sites is associated with poor mental health in adolescents: a cross-sectional study

Version: 3 Date: 1 November 2012

Reviewer: Kazuhito Yokoyama

Reviewer's report:

Minor Essential Revisions
1. Using subheadings in Results and Discussion seems importunate and unnecessary.
2. Background in Abstract should be more concise.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
