Reviewer's report

Title: The longitudinal interplay between negative and positive symptom trajectories in patients under antipsychotic treatment: a post hoc analysis of data from a 1-year study

Version: 2 Date: 12 April 2013

Reviewer: Massimiliano Buoli

Reviewer’s report:

The authors answered appropriately to my queries and they incorporated my observations in the paper where possible. I think that the paper is actually suitable for publication in the journal.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
