Reviewer's report

Title: Development of a mental health care package in Nepal: a formative study

Version: 2 Date: 11 October 2013

Reviewer: Yuka Kato

Reviewer's report:

The authors tried to provide a framework for development of a mental health care plan in Nepal. How to provide mental health care in low income settings is a major health care issue. This report proposed an approach to solve the problem, but I have a suggestion. I hope it will be useful you in improving this report.

Discretionary revision
1. Sample and procedure
Please add description of inclusion criteria and exclusion criteria for participants.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
