Reviewer's report

Title: Structural brain changes associated with antipsychotic treatment in schizophrenia as revealed by voxel-based morphometric MRI: an activation likelihood estimation meta-analysis

Version: 3 Date: 29 November 2013

Reviewer: Ian Ellison-Wright

Reviewer's report:

The authors have addressed the reviewer comments in reasonable way.

Although the data is somewhat limited, the findings are of interest given the literature on brain changes in schizophrenia and the uncertainty about the confounding effect of antipsychotics.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
