Reviewer's report

Title: A bipolar disorder patient becoming asymptomatic after adjunctive anti-filariasis treatment: a case report.

Version: 1 Date: 14 November 2012

Reviewer: E Fuller F. Torrey

Reviewer's report:

Discretionary Revisions

This is a useful case report, but raises two questions:
1. What kind of drugs are there for anti-filarial agents? Are they used in other conditions?
2. How was filarial encephalopathy ruled out?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
