Methods/ Results

You did not report the missings. In the method part, you wrote that the test sample consists of 748 Chilean children. In your first table, however, you have 275 Aymara and 409 non-Aymara children that gives you a sample size of 684 Chilean children…. Can you explain that?

Minor Essential Revisions

Language

Abstract:

Only recently, attention has been paid to…..

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
