Reviewer’s report

**Title:** The rise of assertive community interventions in South Africa: A randomized control trial assessing the impact of a modified assertive intervention on readmission rates; a three year follow-up

**Version:** 4  **Date:** 4 February 2014

**Reviewer:** Gary Cuddeback

**Reviewer’s report:**

The authors did a thorough job of addressing the comments of the reviewer. This is a well written manuscript that has the potential to contribute to our understanding of the outcomes associated with modified assertive community treatment teams.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
