Reviewer's report

Title: Treatment of bipolar disorder in the Netherlands and concordance with treatment guidelines. Study protocol of an observational, longitudinal study on naturalistic treatment of bipolar disorder in everyday clinical practice.

Version: 2 Date: 17 February 2014

Reviewer: Richard Morriss

Reviewer's report:

I am content with the changes made to the manuscript in response to reviewers.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I am now the current chair of the NICE clinical guideline development group for bipolar disorder. This is a non-fiancial competing interest because I am not paid for the position.
