Reviewer's report

Title: Habitual Prospective Memory in Schizophrenia

Authors:

Dr Brita Elvevag (elvevaab@intra.nimh.nih.gov)
Elizabeth A Maylor (E.A.Maylor@warwick.ac.uk)
Abigail L Gilbert (gilberta@mail.nih.gov)

Version: 3 Date: 11 Jun 2003

Reviewer: Fergus Craik

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Other (see below)

I have now read the revised paper by Elvevag, Maylor & Gilbert carefully, and am happy to recommend publication in BMC Psychiatry. The authors responded appropriately to the initial reviews, and the present paper is an improved version. It will make a good contribution to our knowledge of cognitive problems in schizophrenia.
