Reviewer's report

Title: Bright Green Light Treatment of Depression for Older Adults [ISRCTN69400161]

Version: 3 Date: 13 October 2005

Reviewer: Bjørn Bjorvatn

Reviewer's report:

General
The paper has improved substantially with the revision. I still wish the authors would add more sleep data, like total sleep length and sleep efficiency. Besides that, I have no further comments.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
