Version: 2 Date: 4 November 2005

Reviewer: David Mataix-Cols

Reviewer’s report:

General

I feel that the authors have dealt with all the issues I raised. This is a useful contribution to the literature.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field
