Reviewer’s report

Title: Metabolic risk factors profile associated with use of second generation antipsychotics: a cross-sectional study in a community mental health centre

Version: 2 Date: 21 December 2005

Reviewer: Deanna L Kelly

Reviewer’s report:

General acceptable

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
