Reviewer's report

**Title:** Anxiety and Stress in the Postpartum: Is there more to postnatal distress than depression?

**Version:** 2  **Date:** 24 January 2006

**Reviewer:** Vivette Glover

**Reviewer's report:**

General

-----------------------------------------------------------------------------------------------------------------

**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------------------------

**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

P2 Abstract/Results First sentence-replace likely with possibly. Second sentence-omit "a" before broader.

P3 Background 2nd para replace "evidenced " with "shown by". Replace "asserted" with "has said"

P10 Results 1st para "likely to be depressed" given for both cut off of 12 and 9-should clarify or differentiate.

-----------------------------------------------------------------------------------------------------------------

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No
