Title: Does Bright Light Have Anxiolytic Effects? An Open Trial

Version: 3 Date: 7 August 2007

Reviewer: Timo Partonen

Reviewer's report:

General

The authors have now answered all my points sufficiently well to allow their revised manuscript to be published. Their manuscript is a good and interesting report. I have no further comments.

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
