Title: The Improved Clinical Global Impression Scale (iCGI): development and validation in depression

Version: 3 Date: 18 August 2006

Reviewer: Rolf R. R Engel

Reviewer's report:

General
The points raised in my first review are modified adequately.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests
