Reviewer's report

Title: ADHD and Disruptive behavior scores - associations with MAO-A and 5-HTT genes and with platelet MAO-B activity in adolescents

Version: 6 Date: 1 February 2008

Reviewer: Anita Thapar

Reviewer's report:

The authors have made enormous effort at changing their ms and addressing concerns.
It reads well now, and I am completely happy with it.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
