Reviewer’s report

Title: Executive function does not predict coping with symptoms in patients with a diagnosis of schizophrenia

Version: 2 Date: 1 April 2008

Reviewer: Paul Lysaker

Reviewer’s report:

I think the ms has been much improved in a manner responsive to the concerns raised. I feel it will have an important place in the literature and will be of interest both to researchers and clinicians.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
