Reviewer's report

**Title:** A comparison of low-dose risperidone to paroxetine in the treatment of panic attacks: a randomized single-blind study.

**Version:** 3 **Date:** 6 February 2009

**Reviewer:** Francisco Moreno

**Reviewer's report:**

The authors have responded well to the reviewers comments. The paper is better suited for publication.

This is an article of importance in the field but the excitement is hampered by the limitations in methods which are now better acknowledged by the authors.
