Reviewer's report

Title: Psychotropic medication in the French child and adolescent population: prevalence estimation from health insurance data and national self-report survey data

Version: 2 Date: 16 September 2009

Reviewer: Antonio Clavenna

Reviewer's report:

Most of the suggested revisions were taken into account in the revised paper. I think that in its present form the paper is worthy of publication

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
