Reviewer's report

Title: Analysis of the effectiveness of interventions used during the 2009 H1N1 influenza pandemic

Version: 3 Date: 11 March 2010

Reviewer: George Rachiotis

Reviewer's report:

Reviewer's report:

General

The manuscript has been improved and authors provided a satisfactory point by point response to the comments.

Discretionary Revisions

1. The authors’ response (point 2) is in general satisfactory. However, I believe that a part of this response could be included in the discussion.
   This also would be the case with point 5.

What next?

Accept after Discretionary revisions.

Level of interest: An article whose findings are important to those with closely related research interests.

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interest.
