Title: Prediction of posttraumatic stress disorder among adult in flood district

Version: 5 Date: 27 January 2010

Reviewer: Anke Ehlers

Reviewer's report:

The authors have been responsive to the reviewers' comments.

Thank you for clarifying that the DSM-IV criteria were used. It still is unclear on p. 7 whether participants met the A2 criterion. It would be helpful if that was made explicit.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
